

# News & Insights

On the website of the National Agency for Fiscal Administration ([www.anaf.ro](http://www.anaf.ro)) was published, on 10th June 2020, the draft of the Order of the President of ANAF for the approval of the procedure for connecting the electronic fiscal cash registers to the national information system for surveillance and monitoring fiscal data of NAFA.

According to the draft, economic operators that collect the value of retail goods, as well as for the services provided directly to the population, have the obligation to ensure the remote connection of electronic fiscal cash registers in order to send fiscal information to NAFA.

In this respect, the connection will be performed starting July 1<sup>st</sup> 2020, by categories of taxpayers, in compliance with the following deadlines:

- a) until September 30<sup>th</sup> 2020, the economic operators included in the category of large taxpayers;
- b) until January 31<sup>st</sup> 2021, the economic operators from the category of medium and small taxpayers;
- c) economic operators purchasing electronic tax cash registers after February 1<sup>st</sup> 2021, on the date of installation of the electronic tax cash register.

As an exception, economic operators using fiscal electronic cash registers installed in areas not served by electronic communications networks have the obligation to complete and submit the declaration provided in Annex no. 2 to this order, in compliance with certain deadlines, depending on the categories to which the taxpayers belong.

We mention that the above information is part of a draft published on the website of the National Agency for Fiscal Administration, and in order to be applied shall be published in the Official Gazette.

## ABOUT BDO

BDO Romania, the fifth audit and consultancy firm in the country, has 25 years of experience in providing professional services.
